International Specialists in the Environmental Sciences

DATE: August 8, 1980
TO: Rene Van Someren
FROM: Ann C. Weaver
SUBJECT: Illinois/Eckhart Report
Bedford Park/Chicago Acetylene Air Products & Chemicals 7

A Preliminary Assessment Form (USEPA Form T2070-2) has been completed for the subject site. This site was listed on the Illinois-Eckhart Report and has been researched pursuant to TDD# F5-8005-3.

Due to the lack of geologic/hydrolic background, no assessment can currently be made beyond the original recommendation of 2 July 80:

1. Conduct off-site reconnaissance.
2. Complete Preliminary Assessment.
3. Schedule on-site visit and interview owner/operator.
4. Sample local wells if necessary.

No known inspection has taken place. IEPA could spend a day doing preliminaries - E & E could conveniently take it from there if necessary.
